

Who is Broadreach?

We're the agency that has been known as Waldo County Preschool & Family Services for 25 years... and now we are Mid-Coast Children's Services and Youthlinks, too!

Our Mission

We help children and families to develop the skills they need to lead healthy and productive lives. We share our knowledge and experience with child- and family-serving organizations across the state and nation.

“Education is the most powerful tool which you can use to change the world”

Nelson Mandela

PreK Program

The Broadreach Pre K program is open to children living in towns served by RSU 71 who have turned four years old on or before October 15th of the current school year.

Broadreach PreK offers a unique “Nature Meets Nurture” approach to early learning and development. In lively, active-learning settings, both indoors and out, children explore, create, investigate and problem solve. Broadreach is committed to providing children with regular opportunities for immersion in the natural world and interactions with natural and authentic materials.

Our nationally recognized, curriculum (High Scope) is aligned with Maine’s Early Learning Guidelines and Maine DOE Common Core Standards. This curriculum framework provides children with a predictable but flexible structure, ongoing developmental assessment, rigorous academics, innovative physical creative and social activities.

Certified teachers offer carefully planned hands-on, primary experiences where learning flourishes, friendships form, and a sense of belonging is carefully nurtured. Children develop sound social understandings through interpersonal and community connections and they experience academic success as they become masters of their own learning.

The PreK Program provides children with:

A rich early educational experience

Literacy and language infused classrooms

Maine state certified teachers

Research-based instructional strategies and the High/Scope Curriculum

On-going screening and assessments to measure the skills children are gaining and to identify those who might be at risk of developing reading difficulties or other learning difficulties

Preschool, elementary school and parent partnership that supports a seamless transition

Transportation to and from the programs housed in public schools for children living within the elementary school catchment area.
